

# Quality Assurance Report — Complete Path (Courses 16, 17, 18)

## Summary

| Metric               | Count                                                         |
|----------------------|---------------------------------------------------------------|
| Courses              | 3 of 3 (16, 17, 18)                                           |
| Lessons              | 24 of 24                                                      |
| PDFs generated       | 105                                                           |
| Coding projects      | 1 (Portfolio Website — starter + completed, Course 16)        |
| Full simulations     | 1 (Course 17 Lesson 8 — Client Simulation, 12 resource files) |
| Worksheets/templates | 24 lesson worksheets + 5 reusable shared templates/checklists |
| Rubrics              | 3 (one per course) + 1 reusable portfolio review checklist    |

## Checks Performed

- All 24 official lesson titles verified against the curriculum spec, in the exact sequence given.
- Every lesson folder contains exactly 3 files (Instructor\_Guide, Student\_Lesson, Worksheet — PDF + Markdown).
- Course 17 Lesson 8's Client Simulation verified complete: all 12 required simulation resource files present (fictional client profile, inquiry email, discovery call script, requirements, proposal template, pricing/scope worksheet, client feedback, revision request, handoff checklist, evaluation rubric, reflection worksheet, and an instructor-only sample completed solution).
- Searched all Markdown for placeholder markers ("TBD", "lorem ipsum", "to be completed later") — the only hits are intentional instructor/student warnings against leaving worksheet fields blank, not actual unfinished content.
- Spot-checked rendered PDFs across both courses (Lesson 4 Instructor Guide, the Client Inquiry Email, and the Lesson 8 Path-Completion Worksheet) for clipping/overflow — all clean, correctly paginated.
- Confirmed the Course 17 Lesson 4 "template ≠ legally binding contract" disclaimer and parent/guardian-involvement note render prominently, not buried.
- Confirmed the Course 17 Lesson 6 age/account-rule comparison (Fiverr, Upwork, Etsy, Gumroad) explicitly states rules can change and should be verified, and never instructs bypassing or misrepresenting age.
- Confirmed the Course 18 LinkedIn 16+ age rule is stated plainly in Lesson 1 and carried through every lesson as a parallel "portfolio-first" track, framed as equally credible.

- Confirmed no fabricated testimonials, achievements, or client outcomes — all worked examples use the same clearly labeled fictional student, "Jordan R." (plus "Alex T." for the Course 18 portfolio-first track), and the Client Simulation's client (Priya Alvarez / Career Compass Club) is explicitly labeled fictional throughout.

### **Known Limitations / Items for Your Review**

- Platform age/account rules (Fiverr, Upwork, Etsy, Gumroad, LinkedIn) are stated as of this writing and flagged in-file as needing verification before each teaching cycle, since these policies can change.
- The Client Simulation's fictional client scenario (a school club website request) is a single scenario, not several alternates — the Course 17 Instructor Guide notes this as the current scope; additional alternate scenarios could be added later if useful for repeat cohorts.
- Course 18's two-track (LinkedIn/portfolio-first) format adds length to each lesson's Instructor Guide; this is intentional so no student's path is treated as an afterthought.

### **Full Path Status**

All 3 courses (24 lessons) are now complete: Course 16 — Build Your Professional Identity, Course 17 — Skills That Pay, Course 18 — Professional Presence & Opportunity Building. This ZIP contains the full path.
