

Lumexa Digital Independence Path — Complete Package (All 3 Courses)

Ages 15–18 · 3 courses · 24 lessons. This is the complete Digital Independence Path: **Course 16 — Build Your Professional Identity**, **Course 17 — Skills That Pay**, and **Course 18 — Professional Presence & Opportunity Building**, all fully built (all 24 lessons, coding project, the full Client Simulation package, worksheets, PDFs).

What's Inside

- [00_Reference_Materials/](#) — curriculum alignment notes + full 24-lesson production blueprint
- [Course_16_Build_Your_Professional_Identity/](#) — course overview, teacher guide, student guide, and all 8 lessons (each with Instructor_Guide, Student_Lesson, Worksheet — PDF and source Markdown), plus the Portfolio Website coding project (starter + completed + README)
- [Course_17_Skills_That_Pay/](#) — course overview, teacher guide, student guide, all 8 lessons, and Lesson 8's full Client Simulation package (12 simulation resource files: fictional client profile, inquiry email, discovery call script, requirements, proposal, pricing/scope, client feedback, revision request, handoff checklist, evaluation rubric, reflection, and an instructor-only sample completed solution)
- [Course_18_Professional_Presence/](#) — course overview, teacher guide, student guide, all 8 lessons, each teaching both the LinkedIn-eligible (16+) and portfolio-first tracks in parallel
- [Shared_Resources/](#) — reusable rubrics (one per course), case-study/service-package/90-day plan templates, and the portfolio review checklist
- [Future_Platform_Integration/](#) — sample metadata schema for eventual dashboard integration

How to Teach This

Start with each course's [Course_Teacher_Guide.md](#) (or its PDF), then work lesson by lesson — each lesson folder has everything needed for that one class: an Instructor Guide (PDF, for you), a Student Lesson (PDF, share via screen or send to students), and a Worksheet (PDF, printable or fillable). Course 17, Lesson 8 additionally needs its [Simulation_Resources/](#) folder — read the Instructor Guide first, since you'll role-play the fictional client across three sessions.

The Non-Negotiable Safety Rules (apply throughout all 3 courses)

- Never instructs bypassing an age requirement or misrepresenting age, for any platform.

- A written agreement/template used in class is explicitly labeled non-binding — never taught as a real legal contract.
- LinkedIn's 16+ age requirement (subject to local law) is stated plainly in Course 18; students below the applicable age use the equally credible portfolio-first alternative.
- Real paid client work as a minor is framed as needing parent/guardian awareness.
- All platform age/account rules are flagged as subject to change and should be verified against current policy before teaching.

Quality Assurance

See [QA_REPORT.md](#) in this folder for lesson/file counts and validation notes across all 3 courses.
